**Invitation to Bid**

Solicitation Numbers 20181130

Social Interest Solutions (SIS) invites qualified vendors to bid to supply the items specified in the attached form.

SIS is a national, not-for-profit organization dedicated to improving access to quality health and social services through technology and policy solutions. We work with federal, state, and local agencies, service providers, community-based organizations, and researchers to better connect people to health care, nutrition, and safety-net programs.

SIS maintains a technical platform that is current, secure, cost effective, flexible, scalable and highly available. The items required by this invitation are dictated by our current platform and are needed to expand the capacity of the current infrastructure. For additional information you may visit [www.socialinterest.org](http://www.socialinterest.org).

SIS uses this Invitation to Bid to solicit offers from vendors in a sealed bid process. SIS uses [Standard Form \(SF\) 1447](#) for our solicitation and contracting purposes. The attached SF 1447 describes the items required, including descriptions and part numbers or specifications and the quantity required, as well as tax and shipping, if applicable.

As specified in each SF 1447, the sealed bid response must be received by Social Interest Solutions by Monday, December 10, 2018 at 5pm (PDT). The bid should be delivered via Email to [smowry@socialinterest.org](mailto:smowry@socialinterest.org). The bid should include both SF 1447 forms. As stated on SF 1447, complete sections 11, 13, 15, 21, 22, 27 and 28.

Bidders should complete section 20 to indicate the delivery date that can be met for each item assuming award of this contract by Thursday, December 13, 2018 at 5pm PDT. The delivery must be made to the Ship To address provided in Section 12 of the form.

The primary evaluation factor for award will be price, however other factors will be considered, including date of delivery and any special terms. All available discounts should be included in the final price provided in the bid. This should include charity pricing or similar offers as Social Interest Solutions is a 501(c)3 not for profit organization and provides services to Federal, State and Local governments.

Questions regarding this invitation or your response should be submitted via Email to [smowry@socialinterest.org](mailto:smowry@socialinterest.org). Answers will be provided via Email and will also be provided to all potential bidders.

Social Interest Solutions expects to award by Thursday, December 13, 2018 by 5 PM PDT.

Item	Description	Qty
IBM Security Guardium Data Protection for Databases Resource Value Unit (MVS) License + SW Subscription & Support 3 years of support. Term 12/2018 - 12/2021	License and support to cover up to 57 database servers. These licenses are used to install the S-Tap software on the database servers for logging and monitoring all activity on the database servers.	57
IBM Corporation : IBM Infosphere Guardium Collector Software Appliance Install License + SW Subscription & Support 3 years of support. Term 12/2018 - 12/2021	License and support to install 8 Guardium Collectors. The Collectors are used to collect and process data provided by the Guardium S-Taps installed on the database servers. Each Collector will process data from approximately 8 database servers. To cover all 57 database servers we need 8 collectors to handle the performance load from these servers.	8
IBM Corporation : IBM Security Guardium Aggregator Software Appliance Install License + SW Subscription & Support 3 years of Support. Term 12/2018 - 12/2021	License and support to install 3 Guardium Aggregators. Two of the Aggregator's will be used to centrally store and process all the logs and events from the 8 collectors. These Aggregators will be used to search, store, and correlate all the logs from the database servers. The remaining Aggregator will be used as the central configuration servers to configure and control all the other aggregators, collectors, and S-Taps on the database servers.	3
Service bucket hours for implementation and tuning	These 40 hours will be used as needed to help up install, implement, configure, and customize the system to our environment. These hours will be used as needed to schedule remote sessions with the Professional Services Team.	40
